Hassen Ben Chtioui — 17. Oktober 2016 — [Design](#)

The annual [A' Design Award & Competition](#) celebrates all aesthetic enthusiasts—especially those who submit their work to the competition. The carefully selected judges of scholars, professionals and media members select every year a wide spectrum of design goods in various categories which are just insane.

The Awards and also competition grants popularity, eminence, attention and international recognition if your work gets selected by the jury.

We selected several of our favorite winning designs of the category “furniture”.
